8:30 am – 4:30 pm

The Westin Virginia Beach Town Center

JOINT TECHNICAL SEMINAR

The American Society of Civil Engineers (ASCE), the Structural Engineering Institute (SEI) and the Virginia Floodplain Management Association (VFMA) are holding an all-day joint technical seminar and panel discussion on Tuesday, April 4, 2023. We are excited to have sessions diving deeper into the **Six Facets of Resiliency**:

- | | |
|----------------------------------|-------------------------|
| 1. Policy | 4. Planning |
| 2. Civil & Hydraulic Engineering | 5. Structural Solutions |
| 3. Floodplain Management | 6. Environmental |

The program will consist of six sessions with various speakers and a dynamic and engaging panel discussion led by industry leader and long-time Hampton Roads engineering leader, Michael Barbachem, P.E.

PDHs and CFM continuing education credits will be provided. Sponsorship opportunities to follow.
